

SPRINT PLANNING MEETING 3

SPRINT GOAL

The main purpose of this sprint is to ensure that user can buy and sell products and user can review on bought products. This will be completed by using Flutter.

SPRINT BACKLOG

USER STORIES:

1. As a user, I want to be able to add to cart so that I can be able to purchase the item.

ACCEPTANCE CRITERIA:

- A user can only add a product or service to cart.
- User can only add 1 item to cart.
- If user tries adding another item to cart it will not be permitted.

2. As a user, I want to be able to checkout so that I can purchase item.

ACCEPTANCE CRITERIA:

- Can only checkout item which has been added to cart.
- User cannot checkout if there is nothing on the cart.

- User cannot checkout if they do not have enough funds for the item.
3. As a user, I want to be able to add funds to my balance so that I can be able to use the funds to purchase.

ACCEPTANCE CRITERIA:

- After adding funds, the user's funds should increase by the funds added.
4. As a user, I want to be able to add products and services so that I can sell them.

ACCEPTANCE CRITERIA:

- User can add image of what they want to sell.
 - The website should ask for permission to access media to be able to upload the image.
 - If user denies permission then user will not be able to upload image.
 - User can add name and price of item they are selling.
5. As a user, I want to be able to review items I have purchased so that I can give feedback about the purchase.

EPICS TO BE DELIVERED
