I will be back shortly, just getting data.

[14:00, 10/29/2021] Rumbi ❤️ ❤️ ❤️: I can't hear anyone. I'm not sure what is going on. I think it's my network.

[14:16, 10/29/2021] Rumbi ❤️ ❤️ ❤️: I struggled with the network for the meeting. So can someone please summarize for me about the review.

And some documentation is finished, and all diagramming is completed and will upload.

User stories have been put on Taiga already and we just have to finish the tasks.

[14:32, 10/29/2021] Katlego Project: @Dave and @BBA suggested that on the transaction table we add a 2 separate column which will be the rating of our product and our comment which will be called one by one under a certain product and products become a member of the transaction table only after checkout. Then a single review will be identified by a buyer, product ID, text and rating

[14:32, 10/29/2021] Katlego Project: Columns\*
