

# DAILY SCRUM MEETINGS 1

## Group chat discussions

[14:45, 8/17/2021] Rumbi ❤️ ❤️ ❤️ : Burke said we are going to do a website and so far we should cover the log in, sign up and home page. So now we gonna do some research on which method to use for doing the website and will discuss it tomorrow.

We also need to make sure we use the same server for the website as we used for the app.

[15:30, 8/17/2021] +27 84 893 0176: Ohhh okay kool. Thanks rumbi

[14:56, 8/18/2021] Donovan: Hi guys

[14:57, 8/18/2021] Donovan: We supposed to have meeting right?

[14:58, 8/18/2021] Katlego Project: Yessir. We can wait for everyone to be free to discuss

[15:30, 8/18/2021] Rumbi ❤️ ❤️ ❤️ : Can we discuss it tonight? Are you guys available this evening for the Whatsapp discussion

[15:43, 8/18/2021] Donovan: I'm available

[15:50, 8/18/2021] +27 84 893 0176: Yeah

[15:53, 8/18/2021] Katlego Project: Me too

[16:14, 8/18/2021] +27 67 775 8423: What time exactly?

[17:12, 8/18/2021] Rumbi ❤️ ❤️ ❤️ : 7 or 8?

[17:12, 8/18/2021] +27 67 775 8423: Okay, i prefer 8

[20:03, 8/18/2021] +27 84 893 0176: What's up

[20:03, 8/18/2021] +27 84 893 0176: Shall we begin

[20:03, 8/18/2021] Rumbi ❤️ ❤️ ❤️: We can begin

[20:04, 8/18/2021] Donovan: We can start

[20:05, 8/18/2021] +27 84 893 0176: So were we given the tasks that we must complete for the sprint?

[20:05, 8/18/2021] Rumbi ❤️ ❤️ ❤️: The only tasks we have is to complete the login, sign up and home page in web form

[20:06, 8/18/2021] Katlego Project: !

[20:06, 8/18/2021] Rumbi ❤️ ❤️ ❤️: So we trying to get the best way to do the website and did some research on the testing of the website

[20:08, 8/18/2021] +27 84 893 0176: I didn't check that but I just searched just now seems doable

[20:09, 8/18/2021] +27 84 893 0176: I don't understand what you mean by how?

[20:09, 8/18/2021] +27 67 775 8423: I have a friend who was doing a project in flutter, i think he had CI and code coverage working fine, but i'm still waiting for a response on whether he can help us out.

[20:10, 8/18/2021] Katlego Project: I also think flutter is our best bet cause some of these others you have to buy them and all.

[20:10, 8/18/2021] Rumbi ❤️ ❤️ ❤️: Like what we are going to use. Flutter, php, Django or any other way for this.

[20:11, 8/18/2021] +27 84 893 0176: Ohhh makes sense

[20:11, 8/18/2021] Rumbi ❤️ ❤️ ❤️: I'm not familiar with flutter but I think I can check it out. It does seem like our best bet especially for the testing part

[20:12, 8/18/2021] +27 67 775 8423: I'm also not familiar with flutter but apparently its simple to understand it

[20:13, 8/18/2021] +27 84 893 0176: Yah so does that mean we have to watch those 2 hour YouTube videos?

[20:13, 8/18/2021] +27 67 775 8423: I also cheked django and it might also be easy considering it is python, but we might have troubles with Ci and testing

[20:14, 8/18/2021] +27 67 775 8423: There is a video of someone doing an ecommerce website with django on youtube, similar to ours

[20:14, 8/18/2021] Katlego Project: Yeah it is. It's very straightforward. But before we decide on it I think those who aren't familiar to familiarize themselves and Django too, from there we make a decision as to which one is better?

[20:14, 8/18/2021] Rumbi ❤️ ❤️ ❤️: We also have to remember that this semester ci and testing cost a lot of marks.

[20:15, 8/18/2021] Katlego Project: This is a huge plus.

[20:16, 8/18/2021] Katlego Project: @+27 73 880 8874 knows someone who was using Python to build their website last semester and they had CI and testing. Maybe he could also speak to him and find out if he can help

[20:16, 8/18/2021] Rumbi ❤️ ❤️ ❤️: That's seems like a good idea

[20:17, 8/18/2021] +27 67 775 8423: Yes please find out. Let me find the video i'm talking bout

[20:17, 8/18/2021] +27 67 775 8423: <https://youtu.be/YZvRrldjf1Y>

[20:18, 8/18/2021] +27 67 775 8423: Also find out if it's purely python or we need other languages as well

[20:19, 8/18/2021] Katlego Project: I'll give him a call and ask.

[20:19, 8/18/2021] +27 67 775 8423: 🍷

[20:19, 8/18/2021] +27 84 893 0176: Awez

[20:20, 8/18/2021] +27 67 775 8423: Also this semester we need to use someone else's account for TravisCI, and potentially GitHub since they are linked.

[20:20, 8/18/2021] Katlego Project: Cant have different projects?

[20:21, 8/18/2021] Katlego Project: No problem, we can use mine.

[20:21, 8/18/2021] +27 67 775 8423: Apparantly Travis is not entirely free. I remeber some other group ran out of credits mid project last sem and had to migrate to CircleCi

[20:22, 8/18/2021] +27 67 775 8423: Massive

[20:22, 8/18/2021] Rumbi ❤️ ❤️ ❤️: Yea it's not entirely free

[20:25, 8/18/2021] +27 67 775 8423: So the guy says he can help with flutter, should i meet him tomorrow and try to set up something in the meantime while we wait for more info on the python approach?

[20:27, 8/18/2021] Rumbi ❤️ ❤️ ❤️: I think we should wait for more info on the python approach to be able to choose which one is better to use

[20:28, 8/18/2021] +27 84 893 0176: And also we need to like have a feel for ourselves and see which one is more adaptable

[20:28, 8/18/2021] Rumbi ❤️ ❤️ ❤️: True

[20:29, 8/18/2021] +27 67 775 8423: Okay cool... So should we set a date for the next meeting when we will be taking a decision?

[20:32, 8/18/2021] +27 84 893 0176: Yeah that's a good idea

[20:32, 8/18/2021] +27 73 880 8874: I have experience in flutter and its way easier than android studio mina I vote flutter

[20:33, 8/18/2021] +27 84 893 0176: Phumlani ungena nge vote 😂

[20:34, 8/18/2021] Rumbi ❤️ ❤️ ❤️: I legit don't know what to vote since I don't have experience on any of them

[20:34, 8/18/2021] +27 84 893 0176: Same

[20:35, 8/18/2021] Rumbi ❤️ ❤️ ❤️: I think we can set the next meeting to a date after we find out more information

[20:42, 8/18/2021] Donovan: Let's find more info

I'm also asking some guys

[13:04, 8/20/2021] Rumbi ❤️ ❤️ ❤️: Hey guys

I have done more research on comparing Django and Flutter. It seems like Django is much more adaptable than flutter since it's in python but the testing on flutter is much better. Flutter is also kind of adaptable but personally I prefer Django. I had also asked someone who had done Django last year and they mentioned that it was straightforward but the testing needed a lot of research but it can still be tackled.

[15:23, 8/20/2021] Katlego Project: I vote for flutter and mainly for testing and again there's a sea of resources regarding it on the internet.

[16:12, 8/20/2021] Rumbi ❤️ ❤️ ❤️: Understandable

[16:12, 8/20/2021] Rumbi ❤️ ❤️ ❤️: What does everyone else think about it?

[17:07, 8/20/2021] +27 84 893 0176: I think we can do flutter

[18:20, 8/20/2021] Donovan: Flutter

[20:09, 8/20/2021] +27 67 775 8423: Flutter 👍

[14:08, 8/21/2021] Rumbi ❤️ ❤️ ❤️: Flutter it is.

I think we should set a date to give each other tasks to do

[23:36, 8/21/2021] +27 67 775 8423: Can we do this sometime tomorrow(Sunday) ?

[23:40, 8/21/2021] Katlego Project: I'm down with that

[24:23, 8/22/2021] Rumbi ❤️ ❤️ ❤️: That's cool

[14:35, 8/22/2021] Katlego Project: 4pm?

[14:37, 8/22/2021] Rumbi ❤️ ❤️ ❤️: I'll be busy at that time

[18:59, 8/22/2021] +27 67 775 8423: How's 8 for everyone?

[19:09, 8/22/2021] Katlego Project: 9 would be best for me.

[19:09, 8/22/2021] +27 67 775 8423: Cool with me 👍

[19:58, 8/22/2021] +27 73 880 8874: 100

[20:42, 8/22/2021] Rumbi ❤️ ❤️ ❤️: 👍 👍 👍

[20:57, 8/22/2021] +27 84 893 0176: So guys I'm kind of doing something I will be on and off during the meeting

[21:00, 8/22/2021] Katlego Project: Arent we just talking on WhatsApp?

[21:01, 8/22/2021] Rumbi ❤️ ❤️ ❤️: We are

[21:03, 8/22/2021] Rumbi ❤️ ❤️ ❤️: So far we have 4 user stories which are:

-Login with Google

-register

-login with registration details

-the home page

[21:03, 8/22/2021] Donovan: I'll do registration

[21:04, 8/22/2021] +27 67 775 8423: I'll do login

[21:04, 8/22/2021] Katlego Project: I'll do the home page

[21:04, 8/22/2021] +27 67 775 8423: Via DB

[21:05, 8/22/2021] Katlego Project: I'll also try to see if I can find someone or some link for CI

[21:05, 8/22/2021] +27 67 775 8423: Yeah we also should set up the repo, have the boilerplate code there with the yaml

[21:06, 8/22/2021] +27 84 893 0176: Login with registration details

[21:06, 8/22/2021] +27 67 775 8423: That's what I'm doing

[21:06, 8/22/2021] +27 84 893 0176: Shouldn't we have 5?

[21:06, 8/22/2021] Rumbi ❤️ ❤️ ❤️: Yes we should

[21:06, 8/22/2021] +27 84 893 0176: Then login with google

[21:07, 8/22/2021] +27 84 893 0176: If there is noone doing it

[21:08, 8/22/2021] Rumbi ❤️ ❤️ ❤️: Should I set up a new project on Taiga. Or should just continue on the same one but name the new Sprints 'Sprint 1 SDP' etc..

[21:08, 8/22/2021] +27 67 775 8423: Someone send me their .yaml file but they were doing a mobile app, not sure if it needs changing for web dev. I'll send it to you

[21:09, 8/22/2021] Katlego Project: Cool thank you.

[21:13, 8/22/2021] +27 67 775 8423: I suggest use the same 1, if it doesn't need to be linked to github repos or other stuff

[21:14, 8/22/2021] Rumbi ❤️ ❤️ ❤️: It doesn't need to be linked to anything so I will use the same one

[21:18, 8/22/2021] +27 67 775 8423: 🤝

[22:49, 8/22/2021] Rumbi ❤️ ❤️ ❤️: So we need 1 more user story

[22:50, 8/22/2021] +27 84 893 0176: We building a website right?

[22:50, 8/22/2021] Rumbi ❤️ ❤️ ❤️: Yes

[22:50, 8/22/2021] +27 84 893 0176: So does making the website responsive count as a user story?

[22:51, 8/22/2021] Rumbi ❤️ ❤️ ❤️: No it doesn't. That's more of an acceptance criteria for a user story

[24:12, 8/23/2021] +27 73 880 8874: guys sorry I have wifi problems here, khane ibuya manje

[20:42, 8/23/2021] Katlego Project: Project is now on Github with the Travis CI badge and the codecov. We can all start working on it

[20:44, 8/23/2021] +27 73 880 8874: asbonge and I'll do the service part in the market place and you will do the product part

[20:45, 8/23/2021] +27 73 880 8874: meaning the homepage user story is now broken into 2

[20:45, 8/23/2021] +27 73 880 8874: we have have 5 user stories in total

[21:01, 8/23/2021] Rumbi ❤️ ❤️ ❤️: Works perfectly

[13:22, 8/24/2021] +27 62 411 2504: Hi @Rumbi ❤️ ❤️ ❤️ I just realized that you declined the meeting invite, is there a specific reason for this ??

[13:23, 8/24/2021] Rumbi ❤️ ❤️ ❤️: Hey

I think it was by mistake

[13:24, 8/24/2021] +27 62 411 2504: Okay cool 😎

[15:02, 8/24/2021] Rumbi ❤️ ❤️ ❤️: The meeting is on now

[15:58, 8/24/2021] +27 67 775 8423: Guys, @Dave said he will get back to us here 👍

[16:07, 8/24/2021] +27 62 411 2504: Can you quickly rejoin the meeting

Is this you magape ??

[17:24, 8/24/2021] +27 62 411 2504: <https://blog.travis-ci.com/2020-11-02-travis-ci-new-billing> it seems like travis is not entirely free. this wasnt the case last year. @BBA turn off the daily builds to preserve the points.

[17:25, 8/24/2021] +27 67 775 8423: Okay...thanks

[17:25, 8/24/2021] +27 62 411 2504: cool

[07:51, 9/4/2021] Donovan: Hi mates

How's the project going on your sides?

[08:20, 9/4/2021] Rumbi ❤️ ❤️ ❤️: Hey

I have completed all the documentation and will add it on github soon.

Does anyone need help with anything?

[09:46, 9/4/2021] Rumbi ❤️ ❤️ ❤️ : I'm just short with one documentation which is gonna be for the last meeting of the sprint

[10:06, 9/5/2021] Rumbi ❤️ ❤️ ❤️ : Hey guys

How far are you with your tasks

[17:24, 9/5/2021] +27 67 775 8423: I created the login layout, but propably will be done today

[08:46, 9/6/2021] Donovan: Hi guys. So i went for this minimal look because i haven't grasped flutter yet. What do you y'all think i should change or add? I personally don't like the logo there. Any suggestions?

[09:22, 9/6/2021] Rumbi ❤️ ❤️ ❤️ : I think it's actually alright. The logo is not bad either

[13:50, 9/6/2021] Rumbi ❤️ ❤️ ❤️ : How is the Travis.

[13:50, 9/6/2021] Rumbi ❤️ ❤️ ❤️ : We still need to have a Sprint Review meeting

[14:33, 9/6/2021] +27 67 775 8423: Travis is fine, codecov says unknow but maybe will change when we have some test

[16:01, 9/6/2021] +27 67 775 8423: I pushed what i did for login. No errors but codecov still unknown, even though i wrote a test. I'll look into it later

[16:23, 9/6/2021] +27 84 893 0176: Which repo where you using? Is it the kingpinssdp?

[16:24, 9/6/2021] +27 84 893 0176: It hasn't reflected on my side I need to add the Google sign in to the normal sign in

[16:24, 9/6/2021] Donovan: he sent an invite. Check your emails

[16:26, 9/6/2021] +27 84 893 0176: Did he send one or multiple cause the one I had all along is not showing any changes to the project and its the katilehojnr3250/kingpinssdp

[16:28, 9/6/2021] +27 84 893 0176: Ohhhh let me check for this one

[16:38, 9/6/2021] +27 62 411 2504: Hi @BBA, you can also check out how to get the test report from travis ci. You will need to configure this through the yaml, I'd suggest you take an online tutorial. Create a new repo from scratch, once you are confident with what you are doing you can implement that in the project.

[16:57, 9/6/2021] +27 67 775 8423: I saw rumbi used the repo under our organization so i followed suit

[16:58, 9/6/2021] +27 67 775 8423: Got i will look into this as well.  
Thanks a bunch

[20:05, 9/6/2021] +27 67 775 8423: Okay...i fixed the coverage. We are no longer using codecov. I had to switch to coveralls

[20:05, 9/6/2021] +27 67 775 8423: A friend helped out....we are currently at 67%

[20:12, 9/6/2021] Rumbi ❤️❤️❤️: Thank you 🙌🙌

[20:18, 9/6/2021] +27 67 775 8423: What's the minimum percentage we must achieve again?

[20:22, 9/6/2021] Rumbi ❤️❤️❤️: I'm not really sure

[20:23, 9/6/2021] Rumbi ❤️❤️❤️: @Dave what is the minimum coverage percentage we should have

[20:31, 9/6/2021] +27 62 411 2504: I'm not really sure, I have a meeting with rylan tomorrow. But just aim for 80 😁!?

[21:05, 9/6/2021] Rumbi ❤️❤️❤️: Thanks 😊
