

SPRINT REVIEW MEETING 3

REVIEW OF GOALS

Most tasks for user stories have been completed. User is able to buy and sell on the app. User is also able to update funds to be able to purchase. The app will generate a temporary receipt for user after they successfully purchase.

We are still having troubles with testing each user story.

The diagramming is good and corresponds to user stories and task we might do in future sprints.

The Design UI of every part is well put.

DEFINITION OF DONE

- ☒ Able to buy.
- ☒ Able to sell.
- ☒ Checkout.
- ☒ Update funds
- ☒ Generate receipt.

Our Definition of Done has been met. Testing is still an issue we have.
