SPRINT REVIEW MEETING 1

06 August 2021

REVIEW OF GOALS

All tasks for user stories have been completed. Logging in with goggle works, the registration works and logging in as a registered user works.

Testing of login with google has been done and works perfectly.

The diagramming is good and corresponds to user stories and task we might do in future sprints. It will be edited and improved as time goes by.

The Design UI is good, if we want to improve it in the future we will do so.

We used the lamp server and are going to set up the new server in the new Sprint and link our codes to it.

DEFINITION OF DONE

- ☑ Log in works.
- ☑ Code has been written by pairs.
- ☑ Most tests have passed.
- ☑ Messy and poorly designed code has been cleaned up through refactoring.
- ☑ Registration works.

Our Definition of Done has been met.
